FASHION FOREVER

Our old clothes, textiles and shoes can have a second life... why not reimagine them in your community garden or space.

Here are a few ideas to get you started...

Step Into Colour

Use old boots or shoes as planters for summer flowers or herbs.

If planting directly into the shoe or boot please make sure to include some holes for drainage.

Denim Delights

Did you know you can use old clothes such as jeans as planters...

... A stitch or tie in the right place will create a pocket for growing!

Fashionable Frights!

Why not brighten up your community space with a Scarecrows or two using old clothes that you no longer need.

This can also help keep the birds from nibbling your fruit!

Never put
unwanted clothes
in your bin.

Enjoy Reimagining

There are lots of inspiration on Pinterest on reimagining old clothes, shoes and other items to include in your garden or community space making it unique and different.

Have fun getting creative!
